IHEB HAMDI

Full Stack Developer

Barcelona, Spain | +34 677 803 882 | ihebhamdi1@gmail.com

Portfolio: hamdiheb.vercel.app | linkedin.com/in/hamdiheb | github.com/hamdiheb

SUMMARY

Full Stack Developer with a BSc in Computer Engineering, working across frontend and backend to build and maintain business-critical web applications. Strong in **JavaScript** and **Node.js**, **REST API** design and integration, and **relational databases** (PostgreSQL, hand-written SQL). Experienced in business-system integration, maintenance and shipping features end to end in **Agile/Scrum** teams with peer code review. Multilingual (Arabic, English, French, Spanish).

TECHNICAL SKILLS

Languages: JavaScript (ES6+), SQL, Python, Java, C/C++
Frontend: React.js, HTML5, CSS3, Vite, Tailwind CSS, React Router, GSAP
Backend: Node.js, Express.js, REST APIs, WebSockets, API integration, auth (bcrypt, JWT/cookies, CSRF), rate limiting
Databases: PostgreSQL, relational data modelling, SQL, Row-Level Security, Supabase
DevOps & Cloud: Docker, Kubernetes (fundamentals), CI/CD, Git/GitHub, Google Cloud, Cloudflare R2, Vercel, Render
Workflow & AI: Business-system integration, workflow automation, LLM integration, AI agents
Practices: Agile, Scrum, code review, maintenance and incident resolution, System Design, OOP, UML

PROFESSIONAL EXPERIENCE

Full Stack Developer (Freelance) — AB Auto Centre
Aug 2026

Remote (Québec client) · React.js, Node.js, Express.js, PostgreSQL (Supabase), Vercel, Render · abautocentre.com

- Developed the full application end to end (React.js, Node.js/Express.js REST API, PostgreSQL), from requirements to production. Built a bidirectional REST API integration with the GEM-SUITE business system: confirmed bookings are written back as client, vehicle, appointment and work order, removing manual re-entry and double-booked bays.
- Designed a caching layer for the rate-limited API (dedup, tiered TTLs, backoff), cutting a 52,756-row catalogue traversal to per-ID lookups of a few dozen records.
- Implemented a timezone-correct availability engine; secured data with Postgres RLS, cookie-based auth, rate limiting and a CORS allowlist.
- Handled fixes and evolutive maintenance after launch; responsive design and SEO work drove **50% booking growth** in the first month with no paid advertising.

AI Automation Product Manager (Freelance) — Global Sports GmbH
2024 – 2025

Remote

- Delivered internal business tools with developers, owning requirements through release; automated manual workflows with AI integrations, reducing errors and operating costs.

Sales & Operations Lead (Freelance) — ROLEY GmbH
2021 – 2023

Odesa & Barcelona

- Top seller every month, lifting revenue growth from **12% to 25%**; managed and trained a delivery team of 10 in Barcelona.

PROJECTS

GuessWho — Full Stack Multiplayer Game
2026

3-person Agile team · React.js, Node.js, Express.js, PostgreSQL · GitHub

- Built the game end to end (React.js, Express.js REST API, PostgreSQL); authored 52 of 106 commits across 28 merged pull requests in a branch-per-feature Git flow with peer code review.

Jobby — Job Search & Application Tracker
2026

Solo · Node.js, Express.js, PostgreSQL, Docker, Google Cloud · jobby-lac-chi.vercel.app

- REST backend aggregating six job board APIs with tracking on PostgreSQL (hand-written SQL, no ORM).
- Containerised backend and database with Docker on Google Cloud; auth from scratch; presigned uploads to Cloudflare R2; cost-capped AI agent.

PikPilot — AI Movie Discovery Platform
2026

Solo · React.js, Node.js, Express.js, Tailwind CSS · pikpilot.netlify.app

- 5-endpoint REST API pairing an LLM with the TMDB API so every recommendation is verified against real data; rate limiting, strict CORS, input validation and race-condition fixes.

EDUCATION

Full-Stack Web Development — MigraCode Barcelona
Oct 2025 – Jun 2026

- 800+ hours: JavaScript, React.js, Node.js, Express.js, PostgreSQL, REST APIs, WebSockets, Git, Agile delivery.

BSc Computer Engineering — Odessa Polytechnic National University
Sep 2019 – Jun 2022

- Coursework: Python, Java, C++, OOP, UML, Algorithms & Data Structures.
